

CHIC COASTAL LIVING

TUESDAY, OCTOBER 18

Casual SoCal Home

Hi everyone! I hope you are waking up to a beautiful Tuesday (here...it's been raining and raining). Today, I found this gorgeous and casual, *beach house styled*, southern California home. It's perfect for entertaining and has plenty of space for guests to unwind. I love all the coastal details that you'll find here and there. Subtle and not over done, which is the way I like my beach houses lately. What do you think?
